SML 6A	Stirlitz Media Inspector, 6 recording channel - annual licence	3600	
SML 8A	Stirlitz Media Inspector, 8 recording channel - annual licence	4800	

Prices are based on an annual licence, including support and upgrade pack.

Stirlitz Media Inspector operates as an add-on to Stirlitz Media Logger, giving the user instantaneous access to the audio from the SMI web interface or the SML Player. Without Stirlitz Media Logger, Stirlitz Media Inspector does not recognize audio, but cannot play the audio back.

It is possible to upgrade an existing SML server with a Stirlitz Media Inspector add-on. Support and upgrade pack includes live support (within 24 hours in English). Other configurations are also available.
